

Book - Safe on numeric code

A great safe on papers, jewelry, money and more valuables you need to hide. Perfectly proven in the office, at home and at the hotel. It can be laid on a book shelf, so it easily fits between others and will not arouse any suspicion. It features a very good camouflage - it looks like a real book. The inner clipboard is made of steel sheet metal, cardboard and plastic envelope, a protected lock on a numeric code that has 1000 possible combinations.

Technical Specifications:

Material: metal, steel, plastic, carton size: 180x115x55 mm Color: black, dark red, brown, blue weight: 500g
